One Policeman Convicted of Assault and Two Detectives Arrested-Mayor Has With Commissioner Bakersmith Gets a Hearing and a Promise

stop to police brutality bore fruit yester in the conviction of one policeman of assault, the arrest of two detectives in Brocklyn on charges of uncalled for cluband a conference between th Mayor and Police Commissioner Baker which the Mayor made it plain that he wry much in earnest in this matter. Mayor also listened to the complaint of Thomas H. Smith, who appeared las week at the City Hall to complain that he had been clubbed.

When he was on the bench of the Supreme Court Mayor Gaynor frequently condemned the police for assuming that because they were permitted to carry a nightstick they were to be permitted to se the stick on the head of a ny one who happened to displease them. Mayor Gaynor has also frequently stated from the bench that the police went beyond their rights in breaking into houses of citizens without warrants.

Now that Mayor Gaynor is in charge of the police he will at once take steps to put a stop to the old time police methods and to impress on the department from the Commissioner downward that it is no part f the duty of the police to take the into their own hands and that, in fact, it should be their first duty to obey the law

Friends of Mayor Gaynor have been heard to say that Mr. Gaynor in conversathem has often expressed indignation that such a sight should be allowed in New York as that presented by a policeman lumbering along a sidewalk net cases indicating by his bearing that it would be felt by any citizen who dared address him except by the term officer." It is this sort of thing that Mayor

"officer." It is this sort of thing that Mayor Gaynor intends to put a stop to. He intends to make the police realize what they are—protective men and the servants and not the masters of the community. This purpose of Mayor Gaynor is being shown in the personal interest, he is taking in the complaints which have been chibbed by policemen. He has seen the persons who made these complaints, has gone thoroughly into their cases, and it can be added that any one who has been subjected to brutality by the police can be assured of a hearing by the Mayor if they take their experience to the City Hall.

The Mayor had before nim yesterday

The Mayor had before nim yesterday three policemen who were charged with beating Thomas H. Smith of 594 West Twentieth street. Smith, a young and weak looking man, appeared in the Mayor's office, and he told Mr. Gaynor that he had office, and he told Mr. Gaynor that he had been clubbed by the policemen on Sunday night in front of the American Music Hall in Forty-second street. He insisted that the strack had been made upon him without provocation. When the police were asked for their explanation they produced records which went to show that Smith had been arrested many times for disorderly conduct and assault. They asserted also that he was a member of a gang.

The Mayor did not attempt to pass on the case. Instead he instructed Com-missioner Baker, who was present at

the Mercer street station.

Charges against Mann were that on January 8 he was intoxicated while arraigning a prisoner in the station house, that he used unnecessary violence in arresting William J. Houston of 66 Pierrepont street, Brooklyn, on the same date; that he assaulted Pearly P. Hayes and his wife, who attempted to remonstrate with him on his treatment of Houston, and that he failed to appear when his trial was called last Friday. On the charges of intoxication and unnecessary violence he was found guilty. The charges of assault on Mr. Hayes and Mrs. Hayes of assault on Mr. Hayes and Mrs. Hayes were dismissed, neither of the complainants appearing. He was also found guilty on the charge of non-appearance at his first trial.

timers around Headquarters say that the decisions rendered mean the beginning of the end for the "system" and its workings at police trials. In the old days it was customary to exclude from the trial room all witnesses except from the trial room all witnesses except those who were actually testifying. When the witnesses for the prosecution had told their story and the case of the defendant came up it would be noticed that policemen who later testified for the man on trial would unobtrusively slip into the room. They remained in the room, too until they were called to the stand and heard all the testimony given for their side. Yesterday Louis J. Grant, Mann's counsel, requested at the beginning of hounsel, requested at the beginning of the trial that all witnesses be excluded. They all went out, but when Mann himself took the stand as first witness for the defence Richard T. Morano, a policeman of the Mercer street station and the only witness subposnaed by the policeman on trial, was noticed seated in the court room. How he got there no one seemed

to know.

"I would suggest that that policeman leave the room until the defendant's testimony is concluded," said Commissioner Walsh. The policeman left.

Besides Dr. Edward J. Donlin, the police surgeon who had found that Mann was intoxicated, Capt. Dominick Henry and the lieutenants and sergeants who were in the station house when Mann brought in Houston there were eight brought in Houston there were eight other witnesses who had followed the policeman and his prisoner to the station. Capt. Henry said that sixteen had appeared at the station house at the time. One of the witnesses, Clarence Allen, a colored coachman of 219 East. Allen, a colored coachman of 219 East Seventy-third street, said that he was nowhere near the scene of the arrest at the time, that he had never seen either the policemen or his prisoner and that he had never been to the Mercer street station house. Capt. Henry explained that a subpens had been served on him evidently because some one else had given his name and address for his own.

The witnesses, with that exception, all said that Mann appeared to be intoxicated, that he had struck Houston and knocked his hat off, and several of them said that they had seen him throw his prisoner to the street and that the prisoner's scalp was cut. Houston himself and that he could remember nothing of

oner's scalp was out. Houston himself and that he could remember nothing of the evening except that an ambulance doctor sewed up a wound in his forehead.

Mrs. Mary Southerland and her husband, George, of 303 West Nineteenth effect, surprised the court when they said that they had seen Mann, half an hour refore the arrest of Houston, at Sixth avenue and Fourteenth street, several blocks away from his post.

that Houston was intoxicated and that he kept following them. Morano did not see the arrest.

After announcing that Mann was found guilty on three of the charges Commissioner Walsh said that Commissioner Baker would announce the penalty later after going over Mann's record.

Mann was appointed to the force November 2, 198. In the thirteen years and more that he has been on the force he has had thirty-eight complaints and been fined sixty days pay. He lost the fingers and thumb of his left hand in a trolley car accident several years ago when he was going home from a polling booth to which he had been assigned.

John Groh and Frederick' Muus, the detectives arrested in Brooklyn, are attached to the staff of Inspector Dillon. Who has charge of Brooklyn's Tenderloin. They were arrested by order of Borough Inspector Holahan after Deputy Police Commissioner Reynolds had investigated their breaking down of a door and their clubbing of two men in the presence of their wives. The policemen were arraigned in the Adams street court and were held in \$500 bail each on charges of assault for examination on Friday.

The assault occurred early yesterday morning and it is alleged to have resulted from a desire on the part of one of the cops to become better acquainted with Mrs. William Donald, wife of a machinist who lives at 69 High street. The Donalds and James Farrei and his wife went to

back to bed.

Soon after there came another rap. Donald shouted angrily at the visitor, and a moment later a heavy body crashed against the door, the bolt ripped off and three men catapulted into the room. Mrs. Donald screamed and her husband sprang to repel the invaders. They were beating him, one of them using the iron bolt, when Farrel, who lives on the same floor, came to his assistance. Even with Farrel's help Donald was unable to cope with three men and

sistence. Even with Farrel's help Donald was unable to cope with three men and both he and his friend were badly beaten before the screams of the two women frightened off their assailants.

Almost immediately afterward Policeman Britt of the Fulton street station, the patrolman on post, appeared at the Donald door and asked what was the trouble. He sent in a call for an ambulance and reported the matter to his

If these policemen think that he is going to testify for me at their trial they'll find some way to club the life out of him. "No. I don't think they will." remarked the Mayor. "I think you will find that nothing like that will happen now."

While the Mayor and Commissioner Baker were conferring. Third Deputy Commissioner Walsh was sitting in judgment on Policeman John W. Mann of the Mercer street station.

Extreme Radical Speeches Made by Radi-cal Leaders Flushed With Hopes of Victory-Yet Day's Elections Favor the Unionists-Home Rule Promises Special Cable Desnatch to Two Sew

LONDON, Jan. 18.-Premier Asquith, ddressing the electors of West Fife at Leven to-day, reiterated his determination to make the question of the House of Lords's right of veto a paramount issue if he is returned to power. He said: "I promise that no legislation of any kind will be considered by the next Parliament until we have settled conclusions with the House of Lords."

It was not of the least use, he added, to talk about specific legislation until that permanent obstacle was removed. In answering hecklers who asked why matters in his election address Mr. Asquith said he had dealt with them in his

Read at \$58,000,000.

At a renewed hearing by the Public Service Commission on the plan of the bondholders of the Third Avenue Raillroad to take the line out of the hands of the receiver it was the turn of counsel for the bondholders to present evidence showing what they considered to be the value of the company.

One of the witnesses called was Henry Floy, who qualified as an expert in the value of the road is now \$58,125,000. It is understood that the committee for the bondholders will maintain that a new capitalization not to exceed that sum would not be excessive and that in the event of the plan heing turned down by the commission the matter will be taken to the courts.

A few days ago THE SUN received a despatch from Rome saying that the statue above referred to had been sent ostensibly to Milan, but that it was suspected that it had been smuggled out of the country. The question of its exportation was raised in the Chamber of Deputies. It would appear from the foregoing despatch that the statue was not taken out of Italy. Kings County Clerk's Scientis County Clerk Henry P. Mollor of Kings announced yesterday that he would appoint Herman M. Hessberg as his deputy at \$2,500 a year, and Fra Foley as his secretary at \$1,500.

"Everything for the Autoist but the Auto"

At the inauguration of our Department for the Autoist, we adopted the above graphic phrase-a literally true one.

That was many years ago. Do you know of another shop to-day qualified to use the phrase in its literal acceptation?

Could those who "shop" from place to place, buying 'here and there," realize the convenience that this department of ours affords, they would lose no time in availing themselves of its advantages and facilities.

Not only are our assortments many times larger than any other similar shop in this country, but our models are distinctive, exclusive-and reliable-always.

Read what the foremost New York newspapers say of Slezak's appearance in Aida, at the Metropolitan Opera House, and then

Hear Slezak sing "Celeste Aida" in the ..

Edison Phonograph

The New York Tribune says:

says: "Mr. Slezak dominated every scene, and his clarion voice rang out superbly in the climaxes. He sang the Celeste Aida with effec-tiveness, and the Nile scene with "It is but a trifling with words, of

course, to say that he was the greatest Rhadames that ever appeared on the American Stage. The house was crowded and the standees out in force; yet it was Slezak, not Caruso, who sang the principal tenor role." fire and passion, yet always with regard for phrase.

The New York American

These comments represent the consensus of opinion of all who heard Slezak at the Metropolitan in the role of Rhadames. Could you ask for better evidence of the fact that Slezak is the greatest lyric tenor since the days of Tamagno?

He sings the "Celeste Aida" and the great arias from Verdi's "Otella" exclusively for the Edison Phonograph. The Slezak Records are Edison Grand Opera Amberolsplaying longer than any other Records made.

The AMBEROLA, the newest and highest type of Edison Phonograph
